

CUT SHEET

Strong Man Strong Clip

JOBSITE NETTING INSTALLATION MADE EASY!

The Strong Man Strong Clip is the premier fabric-grabbing clip for holding any netting in place. The Strong Clip is designed to quickly & easily secure jobsite netting to the aircraft cable or wire rope, thereby reducing the risk of fabric failure.

It attaches to the hem of the fabric providing a secure mounting or tie-down point. The idea behind this small but effective accessory is simple: the more fabric that is grabbed, the less likely it is to fail.

The number one cost on a jobsite is labor. Simple to use & easy to install, utilize the Strong Clip to save time & money.

FEATURES

- ▶ Heavy-duty nylon
- ▶ Durable & strong
- ▶ Fast & easy to install
- ▶ Effective in cold weather
- ▶ Loop design easily fits over aircraft cable or wire rope
