# SINCE 1974 STRONG MAN SAFETY PRODUCTS

Like many successful businesses, Strong Man Safety Products had humble beginnings, operating out of the garage of owners Jay and Elaine Kinder. Today, Strong Man Safety Products is a leading manufacturer of weather and debris enclosures for all seasons and applications.

## The Difference Is In The Testing

As the nation's no. 1 supplier of debris netting and weather enclosures, we test every container of fire retardant material. We inspect every product container. And we insist on random inspections by an independent third party lab.

## Then, There's The Service

Everyone on our sales staff has worked in the construction supply or scaffold industry. Which means we get it. We know the stress and pressures you face on a daily basis. A tarp not delivered on time means lost time and money out of your pocket. Debris netting that fails puts your company and workers in danger. We provide our customers with top-notch service from the moment the order is placed all the way to delivery. Our job is to keep you worry free.

## Same Day Shipping

Most orders placed before 2 p.m. EST are shipped the same day.

With 40+ years of weather enclosure and debris netting experience, we know the industry inside and out. Our products are safe, smart and save you money in the long run. Once you try us, you'll love us.

*Jay Kinder*

*Elaine Kinder*

# ONCE YOU TRY US, YOU'LL LOVE US!

Dealers and contractors alike trust and prefer Strong Man products. Simply put, since 1974, safety & service have been our strength!

## Here are some reasons for choosing Strong Man:

- ▶ We're experts in weather and debris enclosures—so you don't have to be.
- ▶ We have distribution centers in Pompton Plains, New Jersey and Houston, Texas.
- ▶ Most orders received by 2 p.m. EST ship the same day.
- ▶ Our products meet OSHA specification
- ▶ From gas, moisture & vapor barriers to wet curing blankets to personnel safety nets, Strong Man has the products that provide total jobsite protection.
- ▶ We offer a complete line of construction tarps, as well as specialty tarps, scaffold wrap and reinforced poly.
- ▶ We offer a large inventory of fire-retardant and non-fire-retardant debris and safety netting.
- ▶ Strong Man is Made To Order! We offer a full line of custom made products so that you can customize your jobsite safety needs. If there is a product or color you need that you do not see in our catalog, please call us at 1-800-950-6999 or email us at [sales@strongman.com](mailto:sales@strongman.com).

# PVC-COATED DEBRIS/SAFETY NETTING

## SBN-427

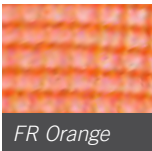

PVC-Coated Polyester with Reinforced Border Made in the USA

### Product Features:

- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ PVC-Coated Polyester
- ▶ Hole Openings Approx. 5/32" x 5/32"
- ▶ High Visibility Fluorescent Orange
- ▶ Lightweight, Durable & UV-Treated
- ▶ Tear-Resistant & Flexible In Cold Weather
- ▶ Meets OSHA Requirements & NYC Local Law #61

### Product Uses:

- ▶ Jobsite & Scaffold Enclosure
- ▶ Barrier & Guardrail Protection
- ▶ Debris Netting
- ▶ Worker & Pedestrian Safety

Availability	
Sizes	FR Orange
4' x 150'	✓
5'6" x 150'	✓

The uses of these products are not limited to the above. Local, state or federal authorities should be consulted concerning the proper use and installation of this product.

DEBRIS/  
SAFETY NETTING

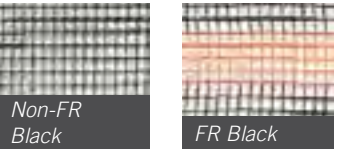

# SBN-22

## Product Features:

- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ Knitted High Density Polyethylene (HDPE) With ¼" Mesh Openings
- ▶ Lightweight, UV-Treated & Long Lasting
- ▶ Edges Are Hemmed & Reinforced For Easy Installation
- ▶ Meets NYC Local Law 61 & OSHA Requirements When Installed Properly
- ▶ Economical & Cost-Effective

## Product Uses:

- ▶ Construction & Jobsite Protection
- ▶ Contains Debris, Dust & Other Jobsite Materials
- ▶ Worker & Pedestrian Safety
- ▶ Scaffold Netting & Enclosure
- ▶ Industrial, Plant & Refinery Maintenance
- ▶ Short-Term Guardrail & Floor-To-Floor Netting

## PROJECT: THE DAKOTA BUILDING

The Dakota Building in New York City is well-known as the cooperative apartment building that has long housed artists and celebrities such as Lauren Bacall and John Madden. At 131-years old, the building needed a facelift, and Strong Man had the tools to keep the jobsite safe. Our **SBN-22 DEBRIS NETTING** was used to cover the scaffolding that surrounded the building during construction, protecting the elite residences, passersby and tourists on the street from potential flying debris hazards.

# SBN-324

## Product Features:

- ▶ Available in Fire-Retardant & Non-Fire-Retardant
- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ Knitted High Density Polyethylene (HDPE) With 1/16" Mesh Openings
- ▶ Hem Includes Reinforced Buttonholes
- ▶ UV-Treated & Long Lasting
- ▶ Flexible In Cold Temperatures
- ▶ Easy To Install Vertically Or Horizontally
- ▶ Rip-Resistant Mesh
- ▶ Air Permeable
- ▶ Durable 60% Mesh

## Product Uses:

- ▶ Construction & Jobsite Protection
- ▶ Scaffold Netting & Enclosure
- ▶ Contains Debris, Dust & Other Jobsite Materials
- ▶ Temporary Guardrail Netting & Floor-To-Floor Netting
- ▶ Wind Barrier Or Shade Cloth
- ▶ Long Term Visual Barrier

## PROJECT: PRINCETON FIRESTONE LIBRARY

Princeton's Firestone Library was the first large American university library constructed after World War II. Plans to renovate the library aimed to create a building well-suited for modern library services while also providing a thorough selection of books and manuscript collections. During the 10 years it took to finish, the library went through multiple phases of renovations and stayed open the entire time. Strong Man's **SBN-324 DEBRIS NETTING** covered the scaffolds as renovations started, allowing library-goers to keep walking the halls and learning, without worry. Vertical debris netting was used on the jobsite, helping keep the jobsite and city safe.

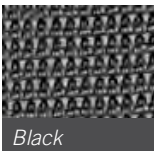

# SBN-1460

## Product Features:

- ▶ Knitted High Density Polyethylene (HDPE) With 1/32" Mesh Openings
- ▶ Available In Non-Fire-Retardant Only
- ▶ Hem Includes Reinforced Buttonholes
- ▶ UV-Treated & Long Lasting
- ▶ Flexible In Cold Temperatures
- ▶ Easy To Install Vertically Or Horizontally
- ▶ Rip-Resistant Mesh
- ▶ Air Permeable
- ▶ Durable 70% Mesh

## Product Uses:

- ▶ Construction & Jobsite Protection
- ▶ Scaffold Netting & Enclosure
- ▶ Contains Debris, Dust & Other Jobsite Materials
- ▶ Temporary Guardrail Netting & Floor-To-Floor Netting
- ▶ Wind Barrier Or Shade Cloth
- ▶ Long Term Visual Barrier
- ▶ Ideal For Use In Custom Fabrication

## PROJECT: BETHLEHEM STEEL

Bethlehem, Pennsylvania is in the midst of transitioning from an industrial past to a modern future. Nowhere is this more evident than at Bethlehem Steel in Bethlehem, Pennsylvania. As the plant transforms from its former use to contemporary facilities, the installation of Strong Man's **SBN-1460 HEAVY DUTY DEBRIS NETTING** ensures no debris will endanger workers or pedestrians. The result is a safe and protected jobsite. Always trust Strong Man to get the job done right the first time.

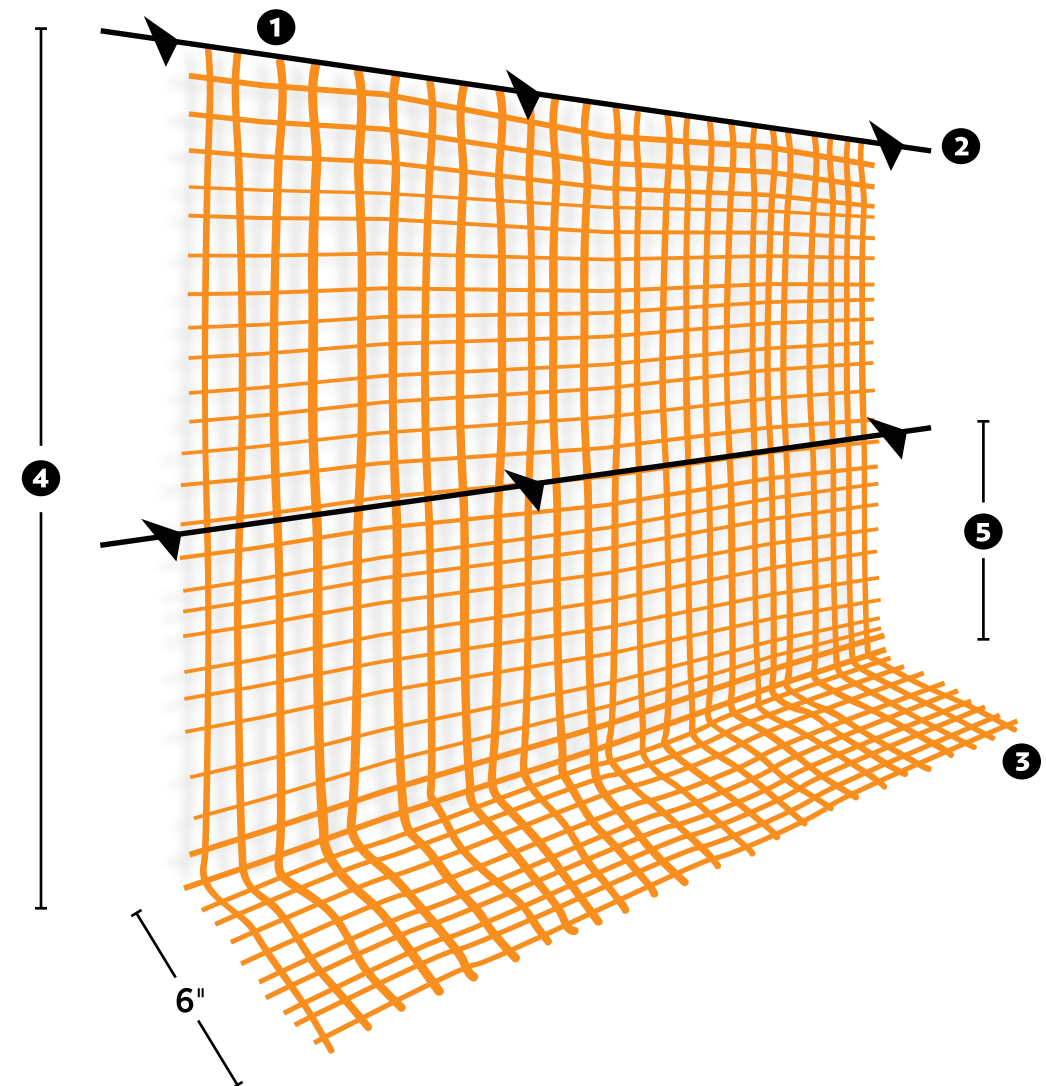

# SUGGESTED INSTALLATION METHOD

- 1 UV-Treated Cable Ties
- 2 Aircraft Cable OSHA Required
- 3 Toeboard Fasten to Floor by Furring Strips or Large Head Nails or Power-Actuated Fasteners
- 4 42" or 60" Depending on Local Laws
- 5 21" or 30" Depending on Local Laws

For protection on open sides  
of buildings

The suggested installation methods depicted and described above may not be appropriate in all circumstances, as conditions that could affect the safe installation of the material may vary from site to site. This suggested installation is provided only as general guidance as to one typical installation method that may or may not, be appropriate for a particular application. Purchaser/user is solely responsible for the proper installation as may be appropriate, or inspect the installation and submit any questions regarding the particular application of the product to a qualified engineer. Strong Man Safety Products disclaims any responsibility for the results of any inappropriate or inadequate installation.

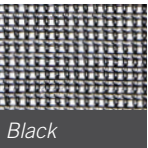

Heavy-Duty Mesh Tarp Versatile  
Enough To Hang Just About Anywhere!

Product Features:

- ▶ Knitted High Density Polyethylene (HDPE) With 1/32" Mesh Openings
- ▶ UV-Treated & Long Lasting
- ▶ Flexible In Cold Temperatures
- ▶ Installed Vertically Or Horizontally
- ▶ Easy To Install
- ▶ Durable 70% Mesh
- ▶ Webbing Added To Hem For Superior Strength

Product Uses:

- ▶ Debris Containment
- ▶ Bridges, Industrial Tanks & Yards, Water Towers
- ▶ Abrasive Blasting
- ▶ Commercial Construction Covers

# KNITTED HIGH-DENSITY POLYETHYLENE PRIVACY SCREEN

## Product Features:

- ▶ High Density Knitted Polyethylene Mesh (HDPE)
- ▶ Durable & UV-Treated
- ▶ Mold & Mildew Resistant
- ▶ Light Weight & Tear-Resistant
- ▶ Will Not Unravel When Cut Or Become Brittle In Harsh Conditions
- ▶ Reinforced Buttonholes Or Rust-Proof Grommets
- ▶ 85% Shade Cloth

## Product Uses:

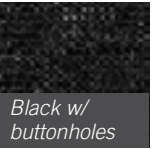

- ▶ Jobsite Perimeter Fence Screen
- ▶ Visual Privacy Screen
- ▶ Construction Jobsite Windscreen
- ▶ Fine Debris & Dust Containment
- ▶ Ideal For Use At Stadiums, Ball Parks, Athletic Events, Theme Parks, Concert Halls & Arenas, Universities & Colleges

# PERSONNEL SAFETY NETS

## Product Features:

- ▶ Industrial-Grade High Tenacity Knotted Nylon Netting With 3-½" Diamond Mesh For High Impact Shock Absorption
- ▶ 17,500 ft-lb Dynamic Drop Test Capacity ANSI A10.11-2010
- ▶ ½" High Tenacity Polypropylene Synthetic Rope Rated At 5,000 lb In Border
- ▶ Steel Snap Hooks (4' On Center & Staggered For Attachment To Nets)
- ▶ UV Treated & Stabilized
- ▶ Certified To Meet The Requirements Of ANSI A10.11, The U.S. Army Corp. Of Engineers & All Applicable OSHA Safety Rules & Regulations
- ▶ Standard & Heavy-Duty Styles Available

## Product Uses:

- ▶ Provides Fall Protection For Jobsite Personnel
- ▶ High Rise Construction
- ▶ Industrial Yards, Plants, Refineries & Oil Drilling Platforms
- ▶ Bridge Construction, Demolition & Maintenance
- ▶ Protects Pedestrians & Neighboring Properties
- ▶ Tunnel & Overpass Construction

# MIGHTY FR CONSTRUCTION TARP

## Product Features:

- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ 18 Ounces Per Square Yard Coated PVC
- ▶ 6" Hem & 2" Welded D-Rings
- ▶ Rust-Proof Grommets
- ▶ Reinforced Hem
- ▶ Rope In Hem
- ▶ Grommets Down The Middle: Extra Tie-Off Point

## Product Uses:

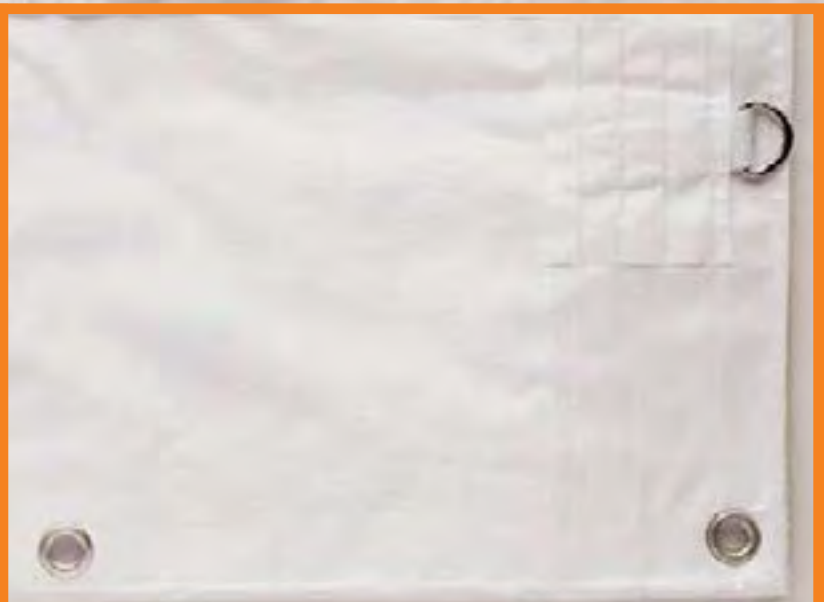

- ▶ Construction Or Scaffold Tarp
- ▶ Wind, Rain & Snow Protection
- ▶ Debris & Jobsite Safety
- ▶ Ideal For High Rise, Bridge & Tall Structure Rehabilitation Or Construction
- ▶ Perfect For High/Extreme Wind Conditions

# SUPER FR CONSTRUCTION TARP

## Product Features:

- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ High Density White Woven Polyethylene (HDPE)
- ▶ Super Strong 14 x 14 Weave
- ▶ 4" Reinforced Hems
- ▶ D-Rings With Webbing Added For Extra Strength
- ▶ Grommets Added Around Perimeter & On Internal Seams
- ▶ Reinforced Hems & Corners
- ▶ Rip-Resistant Fabric
- ▶ Easy To Install, Secure & Remove

## Product Uses:

- ▶ Construction Or Scaffold Tarp
- ▶ Abatement, Demolition & Restoration Tarp
- ▶ Wind, Rain & Snow Protection
- ▶ Temporary Heat Enclosure
- ▶ Debris & Dust Containment
- ▶ Ideal For High Rise, Bridge & Tall Structure Rehabilitation Or Construction
- ▶ Suitable For Moderate To High Wind Conditions

# HEAVY-DUTY FR TARP

## Product Features:

- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ High Density White Woven Polyethylene (HDPE)
- ▶ Durable 10 × 10 Weave
- ▶ Rust-Proof Grommets
- ▶ 2" Reinforced Hem
- ▶ Sewn Corner Patches For Added Rope Strength In Hem
- ▶ Grommets Added Around Perimeter & On Internal Seams
- ▶ Rip-Resistant Fabric
- ▶ Easy To Install, Secure & Remove

## Product Uses:

- ▶ Construction Or Scaffold Tarp
- ▶ Abatement, Demolition & Restoration Tarp
- ▶ Wind, Rain & Snow Protection
- ▶ Temporary Heat Enclosure
- ▶ Debris & Dust Containment
- ▶ Ideal For High Rise, Bridge & Tall Structure Rehabilitation Or Construction
- ▶ Suitable For Moderate Wind Conditions

# ECONO FR TARP

## Product Features:

- ▶ Fire-Retardant: Meets NFPA 701 Method II & the Boston Fire Marshal Test BFD IX-1
- ▶ High Density White Woven Polyethylene (HDPE)
- ▶ Cost-Effective & Economical
- ▶ Durable 7 × 7 Weave
- ▶ Rust-Proof Grommets
- ▶ Plastic-Reinforced Corner Pieces Added For Extra Strength
- ▶ Grommets Added Around Perimeter & On Internal Seams
- ▶ Rip-Resistant Fabric
- ▶ Easy To Install, Secure & Remove

## Product Uses:

- ▶ Construction Or Scaffold Tarp
- ▶ Abatement, Demolition & Restoration Tarp
- ▶ Wind, Rain & Snow Protection
- ▶ Temporary Heat Enclosure
- ▶ Debris & Dust Containment
- ▶ Designed For Use On Lower Floors Of Construction Projects with Low to Moderate Weather Conditions
- ▶ Suitable For Low to Mild Wind Conditions

# SNOW REMOVAL TARP

### Product Features:

- ▶ 18 oz Black Heavy-Duty PVC-Coated Polyester With Heat-Sealed Construction
- ▶ Stock Size: 20' x 20'
- ▶ 4" Yellow Heavy-Duty Lifting Slings Sewn In Each Corner For Ease Of Movement
- ▶ Stainless Steel, Rust-Proof Grommets Installed 24" On Center Around The Perimeter
- ▶ Webbing-Reinforced Perimeter
- ▶ Heavy-Duty, UV-Resistant Thread With "Lockstitch Sewing"

### Product Uses:

- ▶ Jobsite Snow Removal
- ▶ Superior Fabrication & Strong Man Quality
- ▶ Easy To Use & Efficient
- ▶ Helps To Keep Your Jobsite On Schedule & On Budget By Saving You Labor & Lost Man Hours

# SUPREME UV NON-FIRE RETARDANT TARP

### Product Features:

- ▶ High Density Woven Polyethylene (HDPE)
- ▶ Color: Top – Silver, Bottom – Black
- ▶ Strong 14 x 14 Weave
- ▶ 10 Mil Thickness
- ▶ Rust-Proof Grommets Every 3' On Center
- ▶ Heat-Sealed Hems
- ▶ Polypropylene Rope In Hem
- ▶ Heavy Duty Plastic-Reinforced Corners
- ▶ UV-Treated & Long Lasting

# VAPORBLOCK® 10 & 15

## Product Features:

- ▶ VaporBlock® is a high performance, underslab vapor barrier designed to retard moisture migration through concrete slabs and concrete walls to protect your structure from:
- ▶ MOLD: VaporBlock® reduces moisture condensation within a structure, impeding the growth of molds, mildews, and fungi.
- ▶ MOISTURE: VaporBlock® protects flooring materials by maintaining moisture levels well below the requirements of ASTM E-1745-11.
- ▶ RADON: VaporBlock® is used as a component of radon mitigation systems to protect indoor air quality and occupant health. Raven also offers VaporBlock® Plus™, a highly effective gas and moisture barrier.

## Product Uses:

- ▶ VaporBlock® is one of the most effective underslab vapor barriers on the market today! Benefits include:
- ▶ Low moisture vapor permeability
- ▶ Superior puncture resistance
- ▶ High tensile tear strength
- ▶ Resistance to decay and degradation
- ▶ VaporBlock® is manufactured to strict conformance specifications under our ISO 9001 Certified Management System to consistently exceed ASTM standards and project expectations.

VaporBlock 10 – 15' x 200'	✓
VaporBlock 15 – 12' x 200'	✓

Applications		
Underslab Vapor Retarder/Barrier	Foundation Wall Vapor Retarder	Radon Retarder

# RAVEN VAPORBLOCK® PLUS™ 20

## Product Features:

- ▶ VaporBlock® Plus™ 20 is a seven-layer co-extruded barrier made from state-of-the-art polyethylene & EVOH resins to provide unmatched impact strength as well as superior resistance to gas & moisture transmission
- ▶ VaporBlock® Plus™ 20 is a highly resilient underslab / vertical wall barrier designed to restrict naturally occurring gases such as radon and/or methane from migrating through the ground & concrete slab.
- ▶ VaporBlock® Plus™ 20 is more than 100 times less permeable than typical high-performance polyethylene vapor retarders against Methane, Radon & other harmful VOCs.
- ▶ VaporBlock® Plus™ 20 is one of the most effective underslab gas barriers in the building industry today far exceeding ASTM E-1745

## Product Uses:

- ▶ VaporBlock® Plus™ 20 resists gas & moisture migration into the building envelop when properly installed to provide protection from toxic/harmful chemicals.
- ▶ It can be installed as part of a passive or active control system extending across the entire building including floors, walls & crawl spaces.
- ▶ VaporBlock® Plus™ 20 works to protect your flooring & other moisture-sensitive furnishings in the building's interior from moisture & water vapor migration, greatly reducing condensation, mold & degradation.

Availability		
Sizes	White	Tan
10' x 150'	✓	✓

Applications		
Radon Barrier	Methane Barrier	VOC Barrier
Under-Slab Vapor Retarder	Foundation Wall Vapor Retarder	

# CONKURE™ WET CURING BLANKET

Product Uses:

- ▶ Flat Work
- ▶ Pavement
- ▶ Roads
- ▶ Columns
- ▶ Bridges
- ▶ Tunnels
- ▶ Building Construction
- ▶ Decorative Concrete
- ▶ Stained Concrete

Availability	
Sizes	Conkure™ Wet Curing Blanket
9' x 250'	✓

# SBF-76: BARRIER FENCING

Product Features:

- ▶ Easy Installation & Dismantling
- ▶ Low Cost
- ▶ Easy Handling
- ▶ High Density Polyethylene
- ▶ High Strength
- ▶ Durable
- ▶ Lightweight
- ▶ High Visibility Orange

Availability	
Sizes	Orange
4' x 100'	✓
4' x 150'	✓

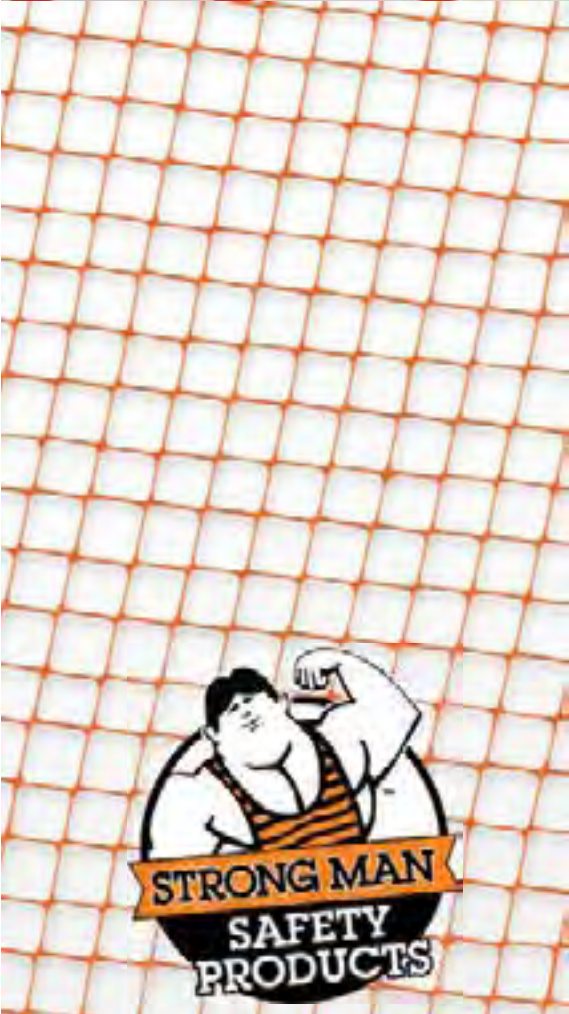

# SBF-18: DIAMOND MESH PLASTIC FENCING

Product Features:

- ▶ High Strength
- ▶ Rigid
- ▶ High Visibility
- ▶ Durable
- ▶ UV-Stabilized
- ▶ High Visibility Orange

Availability	
Sizes	Orange
4' x 50'	✓

The uses of these products are not limited to the above. Local, state or federal authorities should be consulted concerning the proper use and installation of this product.

# BARRICADE & WARNING TAPE

(HEAVY-DUTY POLY)

**Product Features:**

- ▶ Accident Prevention
- ▶ Traffic Control
- ▶ Use Indoors & Outdoors
- ▶ Construction-Site Safety

**Product Uses:**

- ▶ Police/Fire Departments
- ▶ Industrial/Chemical Plants
- ▶ Utility Companies

Availability		
Sizes	Yellow "Caution"	Red "Danger Do Not Enter"
3' x 500'	✓	✓

# RUBBER STRAPS

**Product Features:**

- ▶ Made From Strong Low Density Polyethylene Resin
- ▶ Durable & Long Lasting
- ▶ Equipped With "S" Hooks For Easy & Secure Installation
- ▶ 31" Available
- ▶ Black
- ▶ Works Well In Warm Or Cold Weather
- ▶ Easy To Use & Install

**Product Uses:**

- ▶ Use The Strong Man Rubber Strap When Installing Any Of Our Construction, Mesh Or Specialty Tarps.

Availability	
Sizes	
31"	✓

**Thousands of other tie-down uses**

*The uses of these products are not limited to the above. Local, state or federal authorities should be consulted concerning the proper use and installation of this product.*

# HEAVY-DUTY CABLE TIES

**Product Features:**

- ▶ High Quality, HEAVY-DUTY Nylon
- ▶ 8", 11" & 14" Available 50 & 120 lb Test Strength
- ▶ Black Or White Available
- ▶ UV-Treated & Long Lasting
- ▶ Heat-Stabilized
- ▶ Angled Tail Features For Easy Handling & Alignment

**Product Uses:**

- ▶ Use Strong Man Cable Ties When Installing Our Debris Netting, Scaffold Wrap, Poly Sheeting, Construction & Specialty Tarps.

# SCAFFOLD/ WIND CLIPS

**Product Features:**

- ▶ Heavy-Duty Polyethylene Base Material
- ▶ Consistent Fabrication
- ▶ Flexible, But Strong
- ▶ Durable In Cold Weather
- ▶ Length-Wise Opening Allows For Easy Installation
- ▶ Size/Packaging: 11"/100 Clips/Ctn

**Product Uses:**

- ▶ Secures Reinforced Poly To Scaffolding
- ▶ Industrial/Commercial Jobsites
- ▶ Remediation Sites
- ▶ High-Rise Construction

*The uses of these products are not limited to the above. Local, state or federal authorities should be consulted concerning the proper use and installation of this product.*

# HEAVY DUTY POLYETHYLENE TAPE

## Product Features:

- ▶ Heavy Coat Weight Adhesive Allows For High Adhesion To Surfaces
- ▶ Ultra-Strong
- ▶ Designed For Permanent Applications
- ▶ 10 Mil
- ▶ 16 Rolls Per Carton

## Product Uses:

- ▶ Ideal For Use With Our String & Woven Reinforced Poly & Scaffold Wrap

### Availability

Sizes	
3" x 180"	✓

# PVC SEAM TAPE

## Product Features:

- ▶ Industrial Strength
- ▶ Ultra-Strong Grip
- ▶ Designed To Hold Back Wind & Weather
- ▶ 6 Mil
- ▶ 8 Rolls Per Carton

## Product Uses:

- ▶ Ideal For Use With Our String & Woven Reinforced Poly & Scaffold Wrap

### Availability

Sizes	White
6" x 108'	✓

# BC-111 ROUND BARREL HEAVY DUTY BUNGEE CORD

## Product Features:

- ▶ Heavy Duty Hook-&-Barrel Design
- ▶ Good In Warm & Cold Weather
- ▶ 100 Ties Per Bag, 1000 Pieces Per Carton
- ▶ Easy To Use & Install

## Product Uses:

- ▶ Use The Strong Man BC-111 Round Barrel Heavy Duty Bungee Cords When Installing Scaffold Wrap, Poly Sheeting, Construction & Specialty Tarps.

### Availability

Sizes	Black
12"	✓

The uses of these products are not limited to the above. Local, state or federal authorities should be consulted concerning the proper use and installation of this product.

# STRONG MAN IS MADE TO ORDER!

When it comes to custom-made products, quality counts. So does quick delivery and reliability. Only one company provides all three – **STRONG MAN®**. Don't trust your "Made to Order" needs to just anyone. Go with the debris netting & weather enclosure experts at **STRONG MAN®**.

**STRONG MAN®** has the fabrication expertise to customize all your jobsite enclosure needs. We custom-make the order to your specifications and deliver it to your location or drop ship it to your customer on time and as promised. Whether you need Construction Tarps, Air Bag Tarps, Demo & Mesh Tarps or a Lifting or Personnel Safety Net, **STRONG MAN®** has you covered!

## PERSONNEL SAFETY NETS

- ▶ Fire Retardant & Non-Fire Retardant
- ▶ Available With Or Without A Debris Liner
- ▶ UV-Treated

## MESH TARPS

- ▶ Fire Retardant & Non-Fire Retardant
- ▶ Available With Or Without A Debris Liner
- ▶ UV-Treated

## CONSTRUCTION TARPS

- ▶ Fire Retardant
- ▶ Heavy Duty Polyethylene Material
- ▶ Superior Fabrication & Quality

## AIR BAG TARPS

- ▶ Fire Retardant & Non-Fire Retardant
- ▶ Coated & Uncoated Material Available

## SPECIALTY TARPS

- ▶ Heavy Duty Material & Webbing Available
- ▶ Durable & Strong
- ▶ Snow, Demo & Canvas Tarps Available

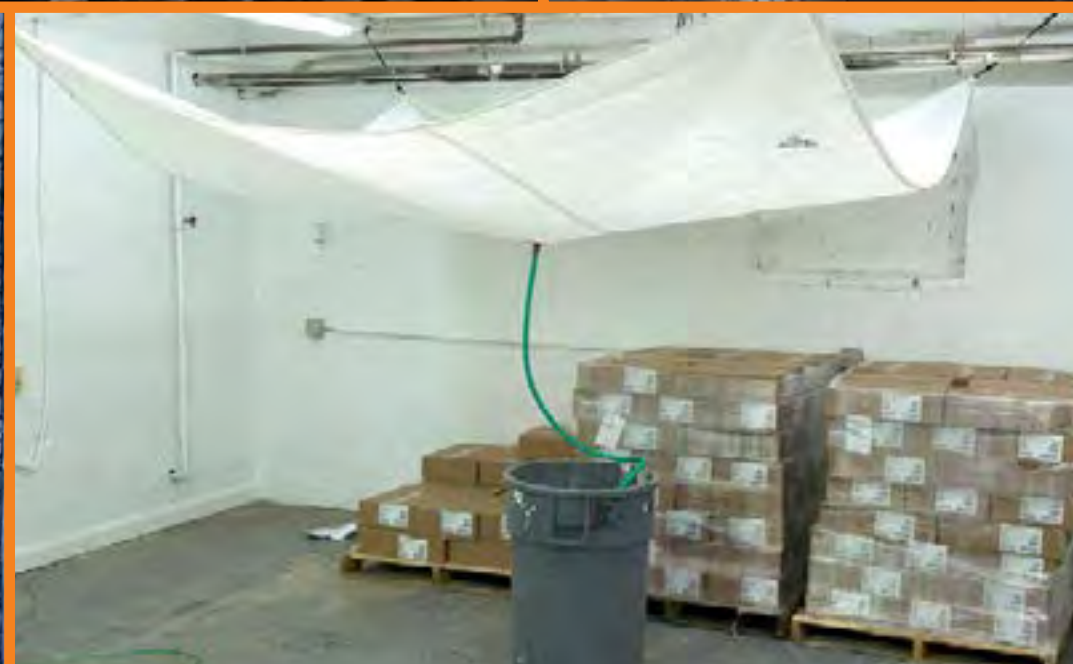

## PERIMETER SAFETY SYSTEMS

Perimeter Net Safety Systems Provide Passive Fall Protection For Construction Workers At Elevated Heights Where Other Means Of Fall Protection Are Not Practical.

# JOBSITE ENCLOSURE & CONTAINMENT PRODUCTS

## **PROJECT:** **TRANSBAY TRANSIT CENTER**

Construction on San Francisco's Transbay Transit Center started in 2008 with plans to centralize the region's transportation network and create the Grand Central of the West. The first phase included the construction of the new Transit Center and bus ramps connecting the building and the west approach of the Bay Bridge as well as the bus-storage facilities. The below-grade train platform and mezzanine levels of the Center were built in the second phase, rounding the total cost of the project to \$105 million. Strong Man **SBN-22 DEBRIS NETTING** secured the area during both phases of construction, keeping hundreds of workers safe on the site. The Transit Center accommodates nine transportation systems, and the surrounding area was redeveloped to include housing and retail.
