Mighty FR Tarp

Mighty Fire Retardant Tarp is a 20 mil, coated PVC, 18 oz/yd (610 gsm), construction tarp that is designed for extreme weather and winter conditions. Ideal for the upper floors/elevations where wind conditions are severe. Standard features for the Mighty FR Tarp include 6" reinforced hem with 4 rows of stitching and reinforced corners, 2" D-rings around perimeter, and rust-proof brass grommets added every 3' around perimeter and on internal seams. Rope border in hem. The center of the tarp has internal seams with grommets which are used as an extra tie-off point to reduce flapping caused by wind.

- 18 oz/yd (610 gsm) coated PVC
- Super strong 18 x 11 weave
- 20 mil nominal, 40 mil hem/corner
- 6" reinforced hem and reinforced corners with grommets
- Rust-proof brass grommets added around perimeter and on internal seams
- Polypropylene rope in hem
- Rip/puncture/tear-resistant fabric
- Easy to install, secure, and remove
- Construction or scaffold tarp
- Debris and dust containment
- Temporary heat enclosure/barrier
- Designed for severe wind and weather conditions
- Suitable for use in high elevations and upper floors of construction projects
- Fire-Retardant: Meets NFPA 701 Method II & Boston Fire Marshal Test BFD IX-1

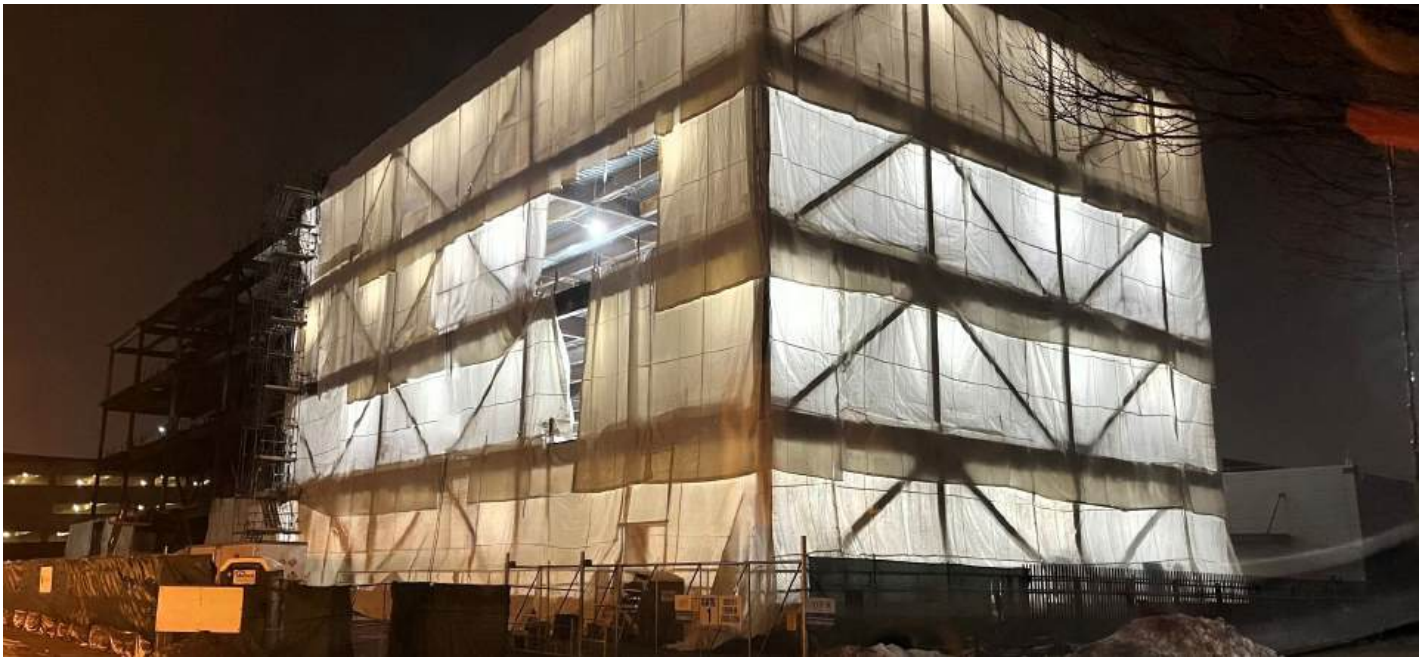

Packaging

The Mighty FR Tarps are tightly folded and packaged in either a bale or carton with size, weight, item #, COO information clearly labeled on the box for easy shipping and handling.

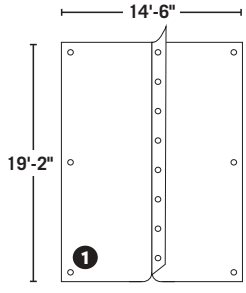

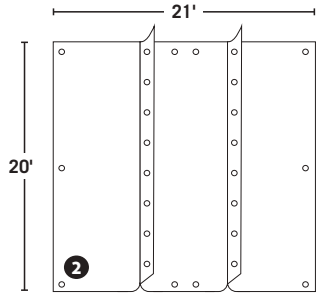

Features and Benefits

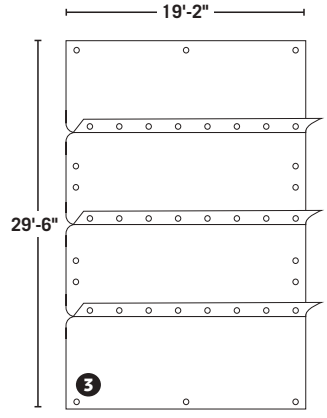

The Mighty FR Tarp's advanced fabrication and superior design makes these 20 mil tarps ideal for the upper floors/ elevations of high-rise projects where wind conditions are severe. Superior building enclosures that keep the heat in and the weather out are essential as steel reaches high elevations. Expert fabrication ensures that grommets will line up on like-sized tarps making installation fast and easy. The base material is a strong and durable 18 oz PVC that is tear, rip, and puncture resistant. Extreme conditions such as wind, snow, sleet, and rain require a tarp designed to last. **When conditions are at their worst, the Mighty Tarp is the solution.**

Item #	Size	Mil	Internal Seams	Grommets / D-Rings Per Tarp	Fire Retardant	Qty/Carton
MT1520	15' x 20'	20	1	12-G / 20-D	Yes	2
MT2021	20' x 21' (FS)	20	2	20-G / 24-D	Yes	1
MT2030	20' x 30'	20	3	28-G / 28-D	Yes	1

FS = Finished Size

❶ 15' x 20' - 12 Grommets, 20 D-Rings, 1 seam

❷ 20' x 21' (FS) - 20 Grommets, 24 D-Rings, 2 seams

❸ 20' x 30' - 28 Grommets, 28 D-Rings, 3 seams
