

# CUT & SPEC SHEET

## POWERBLANKET® GROUND THAWING BLANKETS

Powerblanket® Ground Thawing Blankets are electrically-powered, plug-and-go solutions to thaw and prepare ground in harsh and frozen climates. Cold environments can make pouring concrete, digging, and trenching difficult, but thawing blankets readily use safe, uniform heat to melt snow, ice, and frost, and thaw the ground fast. This innovative heating solution can eliminate jobsite downtime while also lessening labor costs. In addition, these relatively-lightweight thawing blankets are quick and easy to install and remove even during the toughest weather. These 120-volt power blankets come in a wide range of sizes and wattages so as to fit any jobsite.

### Product Features:

- ▶ High watt density thaws frozen ground fast
- ▶ Melts snow and ice from roofs, walkways, and construction areas
- ▶ Quickly removes frost prior to concrete pour
- ▶ Prepares ground for cold-weather digging and trenching
- ▶ Easily installed and removed
- ▶ Provides higher heat control when combined with a thermostatic controller

### Product Benefits:

- ▶ Save big on downtime and labor costs
- ▶ Thaw 12-18 inches of ground per day
- ▶ Eliminate the expense of alternative thawing services
- ▶ Quick and easy to install and remove
- ▶ Extend the working season

### Available Options

Powerblanket® Model #	Heated Dimensions	Finished Dimensions	Heated Area (sq ft)	Voltage	Wattage (+/-5%)	Amps (+/-5%)	Weight (lbs)
EH0509 (20 AMP Plug)	5' x 9'	6' x 10'	45	120v	1650	13.75	25
EH0325 (30 AMP Plug)	3' X 25'	4' x 26'	75	120v	2750	22.92	38
