

Strong Net Skylight Covers

An enhanced level of safety for roof work near skylight or hatch openings.

Strong Net Skylight Covers fit onto raised-lip skylights or hatch openings with a minimum 2" vertical lip surface. Skylight Nets are designed to contain a load of 1,000 lb.

Manufactured using Safety Orange 1-1/2" High Tenacity Polypropylene (HTPP) with a 4" square mesh, each Skylight Net is reinforced with sewn rope borders.

Skylight Nets come with a 1-1/2" green web strap with an attached ratchet for securing tightly around the skylight.

- Provides fall protection safety
- Compacts and stores quickly
- No hand tools required
- Easy to set up

In-stock sizes available:
